

# CAST-METAL MARKERS FOR WEST WINDSOR'S HISTORIC COMMUNITIES

*All signs are produced by Sewah Studios in Ohio. All have identical specifications: 24" wide x36" tall, double-sided, and cast-aluminum. All are mounted on a 7' post embedded several feet into the ground. Signs will feature plaques adjacent to them indicating whether they have been sponsored - and if so, by whom. All cast-metal signs are expected to last many decades and help educate West Windsor residents on township history for generations to come. See below for an example; we aim to produce and install 10 signs total over the next few years (starting in 2022):*
